## Complete Casing & Tubing Running Services

© PAR Energy Services Inc. 2017

## Power Tong Service

Utilizing the top suppliers for tongs, handling tools and service personnel; PAR Energy can supply a full service tong operation from surface to production installs.

- **Integral & Conventional Casing/Tubing Tongs**
- **1.5" - 16" Diameter**
- **Max torque capabilities at 45,000 ft.lbs**
- **Tubular Handling Equipment to 16"**
- **Horizontal or Vertical Buck-on Services**

### *Our Commitment:*

## Casing Running Tools

The Volant CRTi & CRTe allows the customer to rotate, circulate & reciprocate a casing string at maximum tubular tensile/pressure yields without compromising tubular performance.

- **CRTi - 4.5" to 16" casing capabilities**
- **CRTe - 4.5" to 7 5/8" Casing**
- **13,000 - 85,000 ft.lbs of torque capacity**
- **Drilling with Casing & Cement Capable**

*Its not just a job to us, its our livelihood. PAR Energy prides itself by the employees that work here and commitment to customer satisfaction. With safety being our #1 goal, we can feel good about a continued performance culture from within; which will reflect back to our customers.*

## Computer Torque Monitoring

When you've invested millions into your well, the last thing you want to guess on; is whether your casing has been made-up to the engineering specifications it was designed for. Computer torque monitoring will verify data and create a permanent record for that well.

- **Wincatt & TorqueView Touch Systems**
- **Torque Data Management System**
- **Torque/Turns Accuracy to less 1%**
- **Dump system accuracy to less than 1%**
